FormConnect

About Us

FormConnect is an owner-operated software company which provides a **cloud-based registration platform** integrating every required component for participants to electronically enroll into a program, such as a school system, class, camp, event, activity, etc.

We apply **custom workflows** to create an online process for intake, form completion, eSignatures, document uploads, inventory control, payments, communication, and reporting.

FormConnect digitizes your forms for online completion and submission (registration forms, emergency contact forms, medical forms, field trips waivers, permission slips, etc.).
